

My World (should have a better name)

My World

Overall Vibe

- A non-forge world where everyone worships the omnia.
- World looks kind of like Earth except there are 3 continents
 - one at the equator
 - one in the north
 - one in the south
- The only industrial hellscape is on the equator.

Places

- Tokio : The City of Rust
 - This is a densely packed city on the equator
 - This is where the cult Mechanicus are most well found
- TBD
 - This is a small-ish settlement on the south of the southern continent
 - This is where a family of Knights resides
- TBD
 - This is a medium sized settlement in the north of the northern continent
 - where my space marines live
